

## IX.1 INTRODUCTION TO SYSTEM DOCUMENTATION FOR THE FORECAST SYSTEMS

Part IX contains system documentation for the following forecast systems:

- o the Operational Forecast System (OFS)
- o the Extended Streamflow Prediction system (ESP)
- o the Flash Flood Guidance system (FFG)

The documentation includes subroutine, common block and file descriptions.

Chapter IX.2 [[Hyperlink](#)] contains general OFS maintenance information.

Chapter IX.3 [[Hyperlink](#)] describes the OFS subroutines and common blocks.

Chapter IX.4 [[Hyperlink](#)] describes the files in the OFS data bases. Most of the data base files are accessed using the read/write subroutines described in Chapter IX.3.

Chapter IX.5 [[Hyperlink](#)] describes how to access the OFS data bases.

Chapter IX.6 [[Hyperlink](#)] contains system documentation which is specific to the ESP system.

Chapter IX.7 [[Hyperlink](#)] contains system documentation which is specific to the FFG system.
